# COMCAST

## MILE HIGH VIDEO

This year's program committee welcomes speaking proposals from those of you working in the broadcast, content/network provider and OTT industry.

The following themes are prioritized for mhv/2019:

- Universal content preparation and delivery
- Low-latency live streaming, delivering linear using VoD workflows
- Securing OTT and other video delivery methods against piracy
- Hybrid broadcast/broadband methods, ATSC 3.0 personalization
- Encoding for OTT, AI in encoding, analytics, delivery and UX
- Content discovery, promotion and recommendation
- Protocol and Web API improvements and innovations
